List of talks

Omar Mohsen*

Last updated on March 4, 2025

2025

1. November, Istanbul, Turkey, Conference on the honour of G. Skandalis 70s birthday.

2. June, Lund, Sweden, Hypoellipticity in Lund 2025.

3. June, Lausanne, Switzerland, New trends and applications around generalized Fokker-Planck operators. Mini-Course

4. April, Toulouse, France, Regards croisés sur l'hypoellipticité. Mini course.

5. March, Paris, France, Cours Peccot, College de France. Mini-course (4 Lectures).

6. March, Paris, France (IHP), Analysis on homogeneous spaces and operator algebras

7. February, Paris, France, Habilitation Defense at Paris-Saclay University

8. January, Marseille, France (CIRM), Methods in representation theory and operator algebras. Mini-course (4 Lectures).

2024

1. December, Orsay, France, Séminaire Géométrie Topologie Dynamique

2. December, Cairo, Egypt, Winter School in Mathematical Analysis. Mini-Course 3 Lectures

3. November, Marseille, France (CIRM), Frontiers in Sub-Riemannian Geometry

4. June, Bilbao, Spain (BCAM), Kinetic equation, Mathematical Physics and Probablilty (KEMAP) Workshop

5. June, Cortona, Italy, Noncommutative Geometry and Applications.

6. May, Montreal, Canada, Analysis of Geometric Singularities.

*Paris-Saclay University, Orsay, France
E-mail: omar.mohsen.fr@gmail.com

7. April, Marseille, France (CIRM), Group operator algebras and Non commutative geometry.

8. March, Orsay, France, Seminar in University Paris-Saclay (EDP team).

2023

1. December, Toronto, Fields institute, Workshop on Operator Algebras and Applications: Non-Commutative Geometry. Youtube video Recording.

2. November, State College, Pennsylvania, Geometry and Physics seminar.

3. November, Bath, UK, Operator Algebras in the South of the UK.

4. Novemeber, Flanders, Belgium Ghent Methusalem Junior Seminar. Online talk.

5. July, Kyoto, Japan, Noncommutative Geometry, Index Theory and Representation Theory.

6. June, Paris, France, Conference in the IHP on singular foliations

7. May, Oberwolfach, Germany, workshop Hypoelliptic operators in geometry.

8. May, Paris, France, Colloque de Géométrie à l'Université Paris Est Créteil.

9. March, Paris, France, Operator algebra seminar in Université Paris Cité.

10. March, New York, USA, AIM Research Community. Representation Theory and Noncommutative Geometry. This is what I do series. Online.

11. March, Athena, Greece, Noncommutative geometry and representation theory.

12. January, Marrakesh, Morocco, 5th International Conferénce de Settat on Operator Algebras and Applications (ICSOAA2023).

2022

1. December, Villa de Leyva, Colombia, Conference on non commutative geometry and geometric analysis.

2. October, Orsay, France, Groupe de travail.

3. September, USA, Global Noncommutative Geometry Seminar. An online recording is available here.

4. June, Cortona, France, Conference on Dirac operators.

5. June, Caen, France. Rencontre GDR. Two blackboard talks.

6. June, Rome, Italy. Conference Ypatia.

7. April, Pennsylvania, USA, noncommutative geometry seminar. An online talk.

8. March, Pennsylvania, USA, noncommutative geometry seminar. An online talk.

9. February, Paris, France, Operator algebra seminar in Université Paris Cité.

2021

1. October, Les Diablerets, Switzerland, Seminaire Kervaire 2021. 2 blackboard talks.

2. September, Orsay, France, Journée de rentrée équipe Topologie Dynamique.

3. June, Oberwolfach, Germany, workshop Analysis Geometry and Topology of Singular PDE. Oberwolfach Report.

4. January, Muenster, Germany, Seminar of topology team.

2020

1. April, Muenster, Germany, Seminar of operator algebra team.

2019

1. October, Muenster, Germany, Seminar of operator algebra team.

2. June, Kyoto, Japan, Conference in honour of 70 birthday of G. Kasparov.
